Deep Space is where we want to go but we are limited by our knowledge and understanding of the universe. If we knew more about why the universe looks the way it does, could we not go further? Over the last hundred years, through technological advances humanity has been able to reach out and observe the great cosmic mysteries. Penetrating over 15,000,000,000 light years into the past only to find more and more enigmas compounding upon our original, fantastical, and yet unresolved discoveries. Imagine if our understanding of the foundations of astrophysics were intact. Where would we be able to go? If you take just one of the speeds like the Milky Way galaxy, it is moving...
