PEDIGREE ANALYSIS AND CYTOGENETIC STUDY IN VITILIGO

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Genetics in vitiligo | vitiligo is a hereditary disease. Genetic study is important for the inheritance of the disease. Vitiligo is a cosmetic disfigurement, so people try to hide it. In my study how the disease is inherited from one generation to the next generation and chromosomal pattern of vitiligo is elaborated with photographs. Now a days genetic studies are very important. This book is at very basic level along with methods of karyotype are given...
