

## MCS-51 microcontroller applications. technical training guide

Filesize: 1.26 MB

### **Reviews**

*The publication is great and fantastic. I am quite late in start reading this one, but better then never. I discovered this pdf from my dad and i suggested this ebook to discover.*

paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Publisher: Chemical Industry Press Pub. Date :2007-11-01. book and MCS-51 microcontroller application technology theory supporting the use of teaching materials. book of six chapters. divided into the MCS-51 the basics of applied technology curriculum and integrated application of experimental training project training project in three parts. MCS-51 microcontroller to introduce the practical application of technology training in the main line. rich in content and distinct characteristics and a systematic introduction to the MCS-51 application development technology and knowledge. but also write a lot of courses and the comprehensive application of experimental design and practice selection of topics for teaching: students not only single-chip application of technology to improve engineering practice has an important role in guiding and teaching the curriculum reform and development system also has an important significance. Book is suitable for vocational high Reuters majors. can also be used for mechanical and electrical. instrumentation and other professional courses related to teaching. but also as a class of undergraduate electrical engineering and other professional materials and relevant technical training materials for use. Contents: The first part of the basic knowledge of the first chapter the MCS-51 applied technology training practice MCS-51 microcontroller section outlines the content and training requirements of Section II of the MCS-51 application development process and the general characteristics of the third quarter MCS-51 SCM experiment development system components and experiment with features of the fourth quarter MFT889851 V ICESLab microcontroller development system. the second part of experiment development system MCS-51 microcontroller application technology pilot project in Chapter MCS-51 microcontroller basic application programming and debugging Experiment a keyboard operation and commissioning Experiment two and PC online debugging Experiment three block transfer programming and debugging multi-byte...
