OCLC Number: (OCoLC)39917049 Subject: Intervention (International law) Excerpt: . . . Healing the source of these conflicts will require both economic and social development. The implication is that peace operations involve much more than diplomatic and military efforts. They will likely require humanitarian relief and nation building to get at the underlying causes of the conflict and ensure long-term stability. Violent internal conflicts often represent a threat to the peace under the broad meaning outlined above. In addition to humanitarian tragedy, armed conflicts can also affect regional stability by causing mass refugee migration or threatening wider involvement by regional powers. However, these 6 conflicts will rarely threaten the vital interest of the United States. The president's policy on peace operations states that while such limited conflicts do not directly threaten American interest, their cumulative effect is still significant. Peace operations are viewed by the current administration as a cost-effective measure to contain or resolve small internal or regional conflicts before they become more costly threats to the national interests. Because the motivation behind peace operations is limited, the political objectives are also limited. The political objectives of peace operations involve containing small conflicts, alleviating the short-term suffering and external effects caused by these conflicts, and promoting the resolution of the conflict through nonviolent means to achieve long-term regional stability. The political end state of peace operations is reached by establishing a viable political process for conflict resolution while potentially dealing with some of the underlying economic and social causes of the conflict. Peace operations are conducted to reach a solution by conciliation among the competing parties rather than termination by force....
