

## Robocup 2002: Robot Soccer World Cup VI

By -

Springer. Paperback. Book Condition: New. Paperback. 504 pages. Dimensions: 9.2in. x 5.7in. x 1.0in. RoboCup 2002, the 6th Robot World Cup Soccer and Rescue Competitions and Conference, took place during June 1925, 2002, at the Fukuoka Dome (main venue) in Fukuoka, Japan. It was, by far, the RoboCup event with the largest number of registered participants (1004 persons, distributed in 188 teams from 29 countries) and visitors (around 120,000 persons). As was done in its previous editions since 1997, the event included several robotic competitions and an international symposium. The papers and posters presented at the symposium constitute the main part of this book. League reports in the next section describe significant advances in each league and the results. The symposium organizers received 76 submissions, among which 17 papers (22) were accepted for oral presentation at the symposium (first section of the book), and 21 papers (29) were accepted as posters (second section of the book). Most papers were evaluated by three reviewers each, chosen from the members of the International Program Committee (IPC). The IPC consisted of a balanced combination of regular RoboCup participants and researchers from outside this community. The reviewers worked hard to guarantee a fair review process the result of their work was a high-quality symposium with very interesting presentations. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
