

Circumstellar Matter

Filesize: 2.58 MB

Reviews

A must buy book if you need to adding benefit. It is actually rally fascinating throgh studying time. Your way of life span will likely be transform as soon as you complete looking over this publication.

(Ms. Bernice Rolfson)

CIRCUMSTELLAR MATTER

To save **Circumstellar Matter** PDF, make sure you access the button beneath and download the file or gain access to additional information that are related to CIRCUMSTELLAR MATTER ebook.

Book Condition: New. Publisher/Verlag: Springer Netherlands | Proceedings of the 122nd Symposium of the International Astronomical Union Held in Heildelberg, F.R.G., June 23-27, 1986 | Proceedings of the 122nd Symposium of the International Astronomical Union, Heidelberg, Germany, June 23-27, 1986 | The objective of this meeting was to bring together colleagues from different branches of observational astronomy and theoretical astrophysics to discuss and analyse the rapid progress in our knowledge and understanding of the matter surrounding stars, streaming off stellar surfaces, or falling onto stars. The meeting was sponsored by IAU Commissions 36 (Theory of Stellar Atmospheres), 29 (Stellar Spectra), and 34 (Interstellar Matter). There were two special reasons for organizing this meeting at Heidelberg in 1986: During this year the University of Heidelberg celebrated its 600th anniversary and the IAU symposium joined the many scientific events accompanying this celebration. Secondly, the year 1986 also marked the conclusion of a special cooperative research project ("Sonderforschungsbereich") in astrophysics at Heidelberg, a major part of which had been devoted to the physics of circumstellar matter. The main topics discussed at this meeting were: (1) circumstellar matter, bipolar flows, and jets from young stars and protostars; (2) circumstellar envelopes of evolved stars; (3) stellar coronae; (4) stellar winds from hot and cool stars; (5) dust formation and circumstellar chemistry. Many exciting new results were presented in 21 invited or review papers, 26 contributed papers, and 127 poster papers. This symposium would not have been possible without the generous financial assistance of the International Astronomical Union, the German Science Foundation (DFG), and the State Government of Baden-Wuerttemberg. The practical support of the University of Heidelberg and the Max Planck-Society was also very valuable. | Fifteen years of "Sonderforschungsbereich" in Heidelberg: Research on circumstellar matter.- Bipolar Flows, Jets and...
