MODELING INFECTIOUS DISEASES IN HUMANS AND ANIMALS (HARDBACK)

Princeton University Press, United States, 2007. Hardback. Condition: New. Language: English . Brand New Book. For epidemiologists, evolutionary biologists, and health-care professionals, real-time and predictive modeling of infectious disease is of growing importance. This book provides a timely and comprehensive introduction to the modeling of infectious diseases in humans and animals, focusing on recent developments as well as more traditional approaches. Matt Keeling and Pejman Rohani move from modeling with simple differential equations to more recent, complex models, where spatial...
