A few common laboratory parts, put together just so, generate clean, renewable energy out of thin air. It is a Holy Grail, a game changer with endless commercial applications. But when Kevin and his team start to develop the technology, they make a second discovery: someone else wants Endo, and will do anything to get it. Now the race is on to make Endo theirs before someone gets hurt. Or worse. Pushed far beyond his roots, Kevin must learn leadership, business, and more if he is to succeed. But first he must survive.

### Reviews

*Extensive information for book fans. It is written in basic words and never hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.*

*This publication is great. It is full of wisdom and knowledge. You will not really feel monotony at any time of the time (that's what catalogs are for relating to when you ask me).*
