Reviews

A fresh eBook with an all new standpoint. It is actually written in simple words and phrases instead of difficult to understand. You won't sense monotony at any moment of your own time (that's what catalogs are for relating to if you question me).

Granta Books. Paperback. Book Condition: new. BRAND NEW, The Pig That Wants to be Eaten: And Ninety-Nine Other Thought Experiments, Julian Baggini, Julian Baggini presents 100 thought experiments - short scenarios which pose a problem in a vivid and concrete way - and invites the reader to think about possible answers for him/herself. Experiments cover identity, religion, art, ethics, language, knowledge and many more. From Zeno's paradox to Groundhog Day (how do you make sense of a life of eternal recurrence?), via the pig that wants to be eaten (so should you eat him?), Plato's cave, Minority Report (is it right to punish people for what they are going to do, but haven't yet done?), and an American Werewolf in London (how can we tell whether we are awake or dreaming?), this book makes philosophy not only mind-stretching but also entertaining.
