MASTERING CHESS: A COURSE IN 25 LESSONS

Kopec Chess Services. Paperback. Condition: New. 270 pages. Dimensions: 10.0in. x 8.0in. x 0.6in. Mastering Chess is a unique book in that it covers the essentials which every aspiring chess player must know well (from Novice to Expert) to reach the chess Master level. The first edition was popular for some 20 years (from 1985 - 2005) while in print with four different publishers (including PergamonOxford, Cadogan and EverymanLondon, Dover Mineola, NY). It has been rated one of the five best chess books of its kind. Each Chapter of this new edition has new material added and the book has essentially doubled in size. Each Chapter includes new Exercise positions with solutions. Besides being a self-study self help book, it was designed for chess teachers and chess courses. First there is a spritely written 1st Chapter on Tactics and Combinations by Geoff Chandler of Edinburgh Scotland. Mr. Chandler has updated his popular work with observations of play and missed opportunities from Internet play. The 2nd Chapter introduces a new author (Life Master Ian Harris) and a new approach to how openings can be learned. It presents Dr. Kopecs idea that openings can be learned from the perspective of the following five goals: 1) Development 2) Center Control 3) King Safety 4) Space and 5) Material Balance. Dr. Kopec has been expousing this idea for a number of years in his lectures and chess camps. If effective, it is a novel way of teaching a subject that entails volumes and volumes of books over a number of centuries! Mr. Harris has developed this Chapter spanning some 50 pages in conjunction with Dr. Kopec. Dr. Kopec has added new material to his Chapter 3: How To Analyze a Position including lessons on the topics: The Point Count Method, Grand Central Station, and Dont...
