

Essentials of Research Methods in Human Sciences (Hardback)

By Jari Metsamuuronen

Sage Publications India Pvt Ltd, India, 2017. Hardback. Condition: New. Language: English . Brand New Book. Watch Jari Metsamuuronen talk about Essentials of Research Methods in Human Sciences These books, as a whole, serve as a one-stop-shop or all-in-one guide in introducing those at the very beginning of research, beginner university students, distance education students and students in vocational higher education (polytechnics), to the world of basic research methodology - to both the basic qualitative and quantitative methodology. At the same time, the books suits for non-mathematician and non-statistician professional researchers, professors, and lecturers of varied disciplines by providing a practical understanding of tens of possibilities of analysing the dataset. These provide a step-by-step guidance on running of statistical analyses with SPSS dialogue boxes, interpretation of results. The set is divided into three volumes: Volume 1: Elementary Basics leads the beginners into the basics - of research as a process, test construction, qualitative research, statistical description and - inference as well as into the basics of futures studies. Volume 2: Multivariate Analysis teaches analyzing the quantitative dataset with the classical multivariate methods, such as Regression analysis, Factor analysis, Analysis of Variance, and Discrimination - and Classification analysis. The practical part...
