Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Evolution of Continuity in the Natural World This book is a modest attempt to show that there is one Evolutionary Principle ruling in all Nature; that, true to this principle, all Matter has, as it were, evolved into being, and the many fundamental species of dead and living Matter have been differentiated. Also, that the outstanding phenomena of living Growth and Reproduction reflect the action of the Common Factor behind all Evolution. The greater part of the book is, however, concerned with the evolution of living Species, and the development of the theory that this is based on our fundamental evolutionary principle, the Evolution of Continuity. It is curious that though the general principle of Natural Evolution is on an unshakeable basis, the bedrock of the process has never been clearly displayed. Perhaps one explanation of this may be that all workers have been under the influence of the aphorism, *Natura non facit saltum*. Thus, attention has been specially given to resemblances between nearly related types and, following Darwin's lead, to the variation resulting from artificial selection; it being taken for granted that if we could see all the past evolutionary road, this would be revealed as a continuous chain each of whose links was a step onwards in a more or less gradual transformation. The specially large gaps in the road are attributed to lost evidence, to an imperfect geological record, and their mystery has been accepted as impenetrable in the continued absence of new fossil discoveries.
