Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Another ladder, and yet another. The inspectress seemed to have forgotten their steep incline and I was left, a helpless landlubber, cautiously descending step by step. When I joined her in the engine-room she was already deep in conversation with one of her staff. And then I noticed the secret aid to her agility. All the women aboard ship were dressed in trouser suits. The suits, of blue drill for the supervisors, and of a similar material in brown for the labourers, were made with a short tunic, and the trousers were buckled securely at the ankle. A tight-fitting cap to match completed Pg 35 the smart workmanlike costume which permits of perfect freedom of movement in confined places. Without such a costume it would be hardly possible for women to work on board. The women workers on this particular battleship were engaged in renewing electric wires and fittings, a job which requires a good deal of care and accuracy. On the lower deck, they were fitting up new cables and were perched in high places, here sweating in a distribution box, there marking off the position for the wires. Others were drilling holes, others again were tapping, or making a thread in the holes. In the engine-room the women were busy stripping worn-out electric wiring and were working by the light of tall candles, as merry as a party preparing a Christmas tree. Everywhere the women were working in pairs, an arrangement found especially advisable on board. Behind a small iron door we found one couple working on a fire-control in a nook where the entrance of...
