Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Bestselling author and creative consultant, Ron Taylor, walks you through a 7 step writing system that virtually forces your brain to think creatively, while stimulating bursts of productive fiction and novel writing. After struggling for years to overcome the anxiety of a blank page, and despite spending thousands of dollars on training manuals, seminars, and online courses, Ron continued to struggle with his creative writing. Then one fateful day in May, everything changed. While walking his dog in a local park he had an epiphany. There were no fireworks or flashes of light, and no cheering crowds. What happened was a culmination, or jelling, of years of study, frustrating failures, and countless hours spent hovering over empty writing journals. And truth be known, the 7 step system he discovered was so blindingly obvious and simple, he almost cast it aside. If you love writing, but struggle to transform your imaginary worlds and characters into cohesive thoughts or creative expression, this book is for you. If you are tired of being overwhelmed by the daunting task of writing a novel, or even a short story or blog post, this book is for you. When you finish reading this 7 step system for fiction writing, your writing will never be the same. When you are finished, you will be able to: Stop struggling to find ideas to write about. Freeze inhibition in its tracks. Develop a habit of productive writing. Generate bold new ideas for your creative writing. Get the writing results you expect and deserve. Get started with this 7 step writing system today, and discover a new way to write.
