Condition: New. Publisher/Verlag: De Gruyter | The series Trends in Applied Linguistics meets the challenges of the rapidly growing field of applied linguistics. In a very broad sense, applied linguistics is understood by focusing on the application of theoretical linguistics to current problems arising in different contexts of human society. Given the interdisciplinary character of applied linguistics, the series includes cognitive, psycholinguistic, sociolinguistic and educational perspectives. The following topics are included in the series: Second language acquisition and the acquisition of additional languages Bilingual and multilingual education Language planning and language policy Literacy skills Second/foreign language pedagogy Translation and interpretation Language for specific purposes Discourse analysis Language testing and assessment Child language Language and gender Pragmatics and rhetorics Corpus analysis Critical pedagogies Research methodology in applied linguistics Language and technology | Only 15 years ago bilingualism was somewhat outside the main debates in cognitive linguistics. Cognitive linguistics had, to a large extent, taken for granted the fact that language is embodied in our experience. However, not much attention was given to questions of whether any changes to our language repertoire alter the way we perceive the world around us. A growing body of recent research suggests that one cannot understand the cognitive foundations of language without looking at bi- and multilingual speakers. In this vein, the present book aims to contribute to the existing debate of the relationship between language, culture and cognition by assessing differences and similarities between monolingual and bilingual language acquisition and use. In particular, it investigates the effect of conceptual-semantic and pragmatic properties of constructions on code choice and code switching, as well as the impact of bilingual and bicultural education on speakers' cognitive development. This collective volume systematises, reviews, and promotes a range of theoretical perspectives and research techniques that currently inform work across the disciplines of...
