*Merely no terms to spell out. We have read through and i also am confident that i will gonna read yet again again in the future. You will not sense monotony at anytime of your own time (that's what catalogs are for about should you question me).

THE JOURNEY: THE PLATEOSAURUS: DINOSAURS VOL. 1

Abbeville. 1 Laminated Cover(s), 2008. hard. Book Condition: New. Set in the late Triassic period 210 million years ago in the northern part of the supercontinent Pangaea, this first volume in a series follows the dangerous journey of a mother Plateosaurus and her hatchlings in search of food, telling the story in comic book form. The book then describes what scientists have learned about this towering, bipedal herbivore and the world it inhabited. Like the other books in the Dinosaur series a collaboration between a talented artist and a noted paleontologist it re-creates the vanished world of the dinosaurs for readers 9 to 13, first in a comic depicting an individual dinosaur living in its geological time and place, then in a detailed scientific account of the real-life dinosaur's behavior and its interactions with other species. Here too are several short essays, illustrated with drawings and photos, that explain more about the various creatures and geographical settings encountered in the comic. 62.
