Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Timber Resource of Minnesota s Aspen-Birch Unit, 1977 Fieldwork for the 197 7 Minnesota Forest Survey began in July, 1974 and was completed in July, 1978. Reports on the three previous surveys of Minnesota s timber resource are dated 1936, 1953, a nd 1962. Similar Resource Bulletins containing statistical highlights and detailed tables on the timber resource of the other Survey Units in Minnesota (see cover) are also available. These will provide the basis for a comprehensive analysis of the timber resource of the entire State which will be published as a sepa rate report. More accurate survey information was obtained during the 1977 survey than otherwise would have been feasible because of intensified field sampling made possible by funding and man power provided the North Central Station by the State Legisla ture through the Minnesota Department of Natural Resources. The Department also assisted in a canvass of primary wood using plants in the State, which was used to help estimate the quantity of timber products harvested in Minnesota. Aerial photos used in the Central Hardwood Unit survey were furnished by the Minnesota Department of Natural Resources and the usda Agricultural Stabilization and Conservation Service. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
