

The Biology of Transcendence: A Blueprint of the Human Spirit (Paperback)

By Joseph Chilton Pearce

Inner Traditions Bear and Company, United States, 2004. Paperback. Condition: New. 2nd Edition, Paperback Edition. Language: English . Brand New Book. Why do we seem stuck in a culture of violence and injustice? How is it that we can recognize the transcendent ideal represented by figures such as Jesus, Lao-tzu, and many others who have walked among us and yet not seem to reach the same state? In The Biology of Transcendence Joseph Chilton Pearce examines the current biological understanding of our neural organization to address how we can go beyond the limitations and constraints of our current capacities of body and mind--how we can transcend. Recent research in the neurosciences and neurocardiology identifies the four neural centers of our brain and indicates that a fifth such center is located in the heart. This research reveals that the evolutionary structure of our brain and its dynamic interactions with our heart are designed by nature to reach beyond our current evolutionary capacities. We are quite literally, madeto transcend. Pearce explores how this biological imperative drives our life into ever-greater realms of being--even as the cultural imperative of social conformity and behavior counters this genetic heritage, blocks our transcendent capacities, and breeds...
