World Health Organization, Switzerland, 2001. Paperback. Book Condition: New. 144 x 104 mm. Language: English . Brand New Book. As a new member of WHO Family of International Classifications ICF describes how people live with their health condition. ICF is a classification of health and health related domains that describe body functions and structures activities and participation. The domains are classified from body individual and societal perspectives. Since an individual s functioning and disability occurs in a context ICF also includes a list of environmental factors. ICF is useful to understand and measure health outcomes. This handy pocket-sized edition can be used in clinical settings health services or surveys at the individual or population level. Thus, ICF complements ICD-10 The International Statistical Classification of Diseases and Related Health Problems and therefore is looking beyond mortality and disease.
