Reviews

This ebook could be worthy of a read through, and far better than other. I am quite late in start reading this one, but better then never. I realized this publication from my dad and i advised this publication to learn.
(Stefan Von)

RELIGION IN MUSEUMS: GLOBAL AND MULTIDISCIPLINARY PERSPECTIVES (PAPERBACK)

Bloomsbury Publishing PLC, United Kingdom, 2017. Paperback. Condition: New. Language: English . Brand New Book. Bringing together scholars and practitioners from North America, Europe, Russia, and Australia, this pioneering volume provides a global survey of how museums address religion and charts a course for future research and interpretation. Contributors from a variety of disciplines and institutions explore the work of museums from many perspectives, including cultural studies, religious studies, and visual and material culture. Most museums throughout the world - whether art, archaeology, anthropology or history museums - include religious objects, and an increasing number are beginning to address religion as a major category of human identity. With rising museum attendance and the increasingly complex role of religion in social and geopolitical realities, this work of stewardship and interpretation is urgent and important. Religion in Museums is divided into six sections: museum buildings, reception, objects, collecting and research, interpretation of objects and exhibitions, and the representation of religion in different types of museums. Topics covered include repatriation, conservation, architectural design, exhibition, heritage, missionary collections, curation, collections and display, and the visitor s experience. Case studies provide comprehensive coverage and range from museums devoted specifically to the diversity of religious traditions, such as the State Museum of the History of Religion in St Petersburg, to exhibitions centered on religion at secular museums, such as Hajj: Journey to the Heart of Islam, at the British Museum.
