IPTV

Alphascript Publishing. Taschenbuch. Condition: Neu. Neuware - Internet Protocol television (IPTV) is a system through which digital television service is delivered using the architecture and networking methods of the Internet Protocol Suite over a packet-switched network infrastructure, e.g., the Internet and broadband Internet access networks, instead of being delivered through traditional radio frequency broadcast, satellite signal, and cable television (CATV) formats. IPTV services may be classified into three main groups: live television, time-shifted programming, and content (or video) on demand....
