*I just started off reading this article pdf. It really is simplistic but shocks in the fifty percent of your ebook. You will not truly feel monotony at any time of the time (that's what catalogues are for about when you request me).*

## EARTH ENERGIES: A QUEST FOR THE HIDDEN POWER OF THE PLANET (PAPERBACK)

Quest Books,U.S., United States, 1996. Paperback. Condition: New. Language: English . Brand New Book. Examinations and accounts of experimentation with subtle energies. In addition to the scientifically accepted forces of electricity, magnetism, and gravity, there are, according to the author, "psychoenergetic" forces, those that interact with the mind as well as the body. His research deals with the energies behind extraordinary phenomena like non-physical healing, levitation, telekinesis, superstrength, and many others in which the mind is always an important factor. He touches on pyramid power, dowsing, feng shui, and the use of magnets for healing. These, and many more sources may have a single energy in common; the same way different physical elements all have electrons in common. Leave skepticism behind, and be fascinated by his examples and observations that may someday prove to be of practical value, and no more "strange" than bread mold being used to cure disease.
