Createspace Independent Publishing Platform, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. There are so many diverse and multiple count corridors in outer space that today s modern day man and our limited application machines, instruments simply cannot fathom these pathways in uncharted space. Such starry path star field walkways nevertheless exist definitely -- as much as Saturn and mars or Jupiter move around the sun in precise symmetrical time schedules! Our universe exists in such perfect symmetry that only God, The Almighty could have defined and created such precise calculations. Nothing crashes out of the ordinary. Not even moving stars and revolving planets! Unless of course, preplanned by nature and abetted by natural course of events. Take an extraterrestrial view of certain previously unexplained events occurring in deep hyper space which are yet to be discovered, deliberated upon by our modern day scientists, hypothesized upon, then consequently. Practically, rationally and logically established as theories -- as you enjoyably read through this fast paced science fiction novella. You, the reader can easily browse through this book in one simple read! Understand the actual meaning of parallel worlds and inter related time continuum events which occur in deep space even now, as we live through our eventful lives upon earth. Whenever we watch the star filled expanse of night skies on moonlit nights or even during dark nights -- We may sometimes wonder whether that slight movement of a bright shining star located very far away from our solar system -- did actually move ever so slightly! We might even consider that movement as that of an alien space ship, perhaps. Or maybe. The different stratas or layers of earth s atmosphere made that twinkling star veer a wee bit so slightly. Oh no! Alien...
