

Personality Development in Children

By -

University of Texas Press, United States, 2014. Paperback. Book Condition: New. 218 x 137 mm. Language: English . Brand New Book ***** Print on Demand *****.This book presents penetrating observations by six authorities on the personality development of children for the enlightenment of parents, teachers, and others who have a vital interest in children. In the first paper, the late Harold E. Jones, a professor of psychology and the director of the Institute of Human Development at the University of California, examines the development of personality over a long period of time. He discusses the child-rearing practices used with a number of babies, then follows through with observations made several years later to see the effects of these practices. In another paper, John E. Anderson, a professor of psychology at the University of Minnesota and the former director of the Institute of Child Development and Welfare there, supports the theory that valid predictions of future personality adjustment can be made through an assessment of the present status of an individual. Anderson's findings are based on the results of tests administered to children of Nobles County, Minnesota, during the period 1950-1957, and on teacher-community-pupil ratings of these children. Still other...
