

Global Health: Framework for Infectious Disease Surveillance: Nsiad-00-205r

By -

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 34 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO examined the global infectious disease surveillance framework, (with particular emphasis on its operations in developing countries), focusing on: (1) functions involved in infectious disease surveillance and response framework. GAO noted that: (1) primary functions in infectious disease surveillance include detecting and reporting cases of disease in target populations, analyzing and confirming this information to identify outbreaks and clarify longer-term trends, responding to outbreaks when they occur, and supporting longer-term management of disease control programs; (2) global surveillance and response efforts are carried out through a loose framework of formal, informal, and ad hoc arrangements linking numerous entities, including elements of national health care systems, as well as the media and internet discussion groups, laboratories and other institutions participating in disease- and region-specific networks, and nongovernmental organizations; (3) national public health authorities bear basic responsibility for surveillance functions; (4) on the global level, the World Health Organization, an agency for the United Nations, plays a central role; (5) the organization works to strengthen national and international surveillance capacity and coordinates international efforts to monitor disease trends...
