Regulating Technological Innovation: A Multidisciplinary Approach.

By Kica, Evisa (Editor)

Palgrave Macmillan, UK, 2011. Hardcover. Book Condition: New. Dust Jacket Condition: No Dust Jacket. First Edition. Available Now. Book Description: A collection of essays concerning the relationship between regulation and technological innovation. It represents an academic exchange of ideas on the realities and challenges of regulating technological innovation and examines the regulatory issues of fostering technological innovation and its applications. The authors combine this with legal, economic and administrative science perspectives. The book provides answers to important questions including the following. : What type of regulatory framework would best fit the needs of technology and innovation developments? : What competences or authorities should be given to the regulatory actors and other stakeholders to shape the future paths of technology innovation? : What lessons can we distil from other regulatory fields and how we can apply what we have learnt to further enhance the development of technology innovation? : Book Description: Examines the regulatory issues of fostering technological innovation and its applications, and combines legal, economic and administrative science perspectives : About the Author: MICHIEL A. HELDEWEG is Professor of Public Governance Law at the Department of Legal and Economic Governance Studies, University of Twente, the Netherlands. He is also an Honorary...
