

Evaluation and Optimization of Wireless Internet Access

By Carsten Burmeister

Cuvillier Verlag Aug 2007, 2007. Taschenbuch. Condition: Neu. Neuware - The Internet has evolved to the main source of information and to a highly efficient communication means for millions of people all over the world. High bandwidth Internet access enables users to download World Wide Web and multi-media content and communicate via e-mails, Internet chat, voice or even video. By means of wireless communications this access is possible on the move. However, wireless bandwidth is a scarce resource and must be shared by all users that are located in some proximity. Especially in areas of high user density, so called Hot Spots, the existing resources must be used most efficiently to satisfy all communication demands. 142 pp. Englisch.

Reviews

Absolutely essential go through publication. I am quite late in start reading this one, but better then never. You will not feel monotony at at any time of the time (that's what catalogues are for regarding if you ask me).

-- Ambrose Thompson II

This ebook is so gripping and intriguing. Better then never, though i am quite late in start reading this one. You wont really feel monotony at whenever you want of your own time (that's what catalogues are for about in the event you check with me).

-- Ian Wisoky
