The book is fantastic and great. It is definitely basic but shocks in the 50 percent in the pdf. Its been printed in an remarkably basic way and it is just soon after i finished reading this publication in which really changed me, change the way i believe.

9 WAYS WRITING A BOOK CAN SUPERCHARGE AN ENTREPRENEUR S BUSINESS: AND HOW TO GET STARTED VERY QUICKLY WRITING YOUR FIRST NONFICTION BOOK (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Part of the Nantchev s Nuggets of Knowledge series. Pure actionable knowledge. NO fluff. NO theory. Just Results and Success. Writing books is near and dear to my heart, so I decided I would write a book on why entrepreneurs need to write their own book and, briefly I talk about how they can write their first non-fiction book. In this book, I talk about 9 benefits of writing a book, and how each of those can supercharge an Entrepreneur s business in some way. Ranging from increasing your English grammar to it being a better business card than an actual business card. Writing a book, especially a non-fiction book is a rather straight forward process. It starts with you knowing what niche you want to write about and then breaking down your idea for the book into different angles, phrases and topics, and then bringing them all together within the book. A rather straightforward and common sense, but it is common sense that has been conceptualized and codified within this book and maybe more books to come.
