Neuware - Osteosarcoma in Adolescents and Young Adults: New Developments and Controversies is the fifth volume in the series 'Cancer Treatment, and Research' devoted to pediatric oncology. Like its immediate predecessor, Hodgkin's Disease in Children: Controversies and Current Practice, this volume also deals with the current state of affairs: where do researchers differ in opinions or firmly held beliefs What does the future hold for research or for the patients who have benefited from research and are now cured etc. The first part deals with preclinical and clinical issues that relate to the disease and the second part deals with the results of recent trials and in some cases ongoing trials. It could be argued that section B Pharmacology, Section D Radiotherapy and Section E Surgery of part one belong to part two; however in these sections we have tried to focus on one discipline and in part two, we have tried to focus on the results of multidisciplinary trials. A third part includes a few critiques and editorial comments. This volume was prepared and planned for both...
