Just as in Applied Chemistry we can combine elements to create a new element we can combine thoughts to create new ones, better ones to become happier, and more successful. Mental Chemistry allows the change of material conditions by combining and appropriately utilizing the power of the mind. Chemistry is the science which treats of the intra-atomic or the intra-molecular changes which material things undergo under various influences. Mental is defined as of or appertaining to the mind, including intellect, feeling, and will, or the entire rational nature. Science is knowledge gained and verified by exact observation and correct thinking.
