Reviews

This sort of book is every little thing and got me to searching ahead and a lot more. This can be for all those who statte there was not a well worth reading through. I am just easily could possibly get a delight of reading through a published pdf.

(Floy Rolfson)

MATHEMATICAL QUESTIONS AND SOLUTIONS IN CONTINUATION OF THE MATHEMATICAL COLUMNS OF THE EDUCATIONAL TIMES VOLUME 33**DOWNLOAD**

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 32 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1880 Excerpt: . . . without calculation; for the chance that the mixture contains not less than i (m n) wine must be equal to the chance that it contains not more than i (m n) wine, that is, J. 5167. (By Prof. Seitz, M. A.)--A point is taken at random in the surface of a given circle, and from it a line equal in length to the radius is drawn, so as to lie wholly in the surface of the circle; find the chance that the line intersects a given diameter. Solution by Rev. H. J. Day, M. A. ; E. B. Elliott, M. A. ; and others. Let p be the distance of the random point P from the centre of the circle C ; c the radius of the circle; and θ the inclination of CP to the given diameter. Then the whole range of the angles at which the radius can be drawn as prescribed through p , is $2\cos^{-1}\frac{p}{c}$, and the number that cut the diameter in that set is, evidently, $\frac{2c}{p}$. This expression does not seem to admit of integration in finite terms. 5758. (By Rev. H. Q. Day, M. A.)--If A, B be two fixed points, and P a variable point in the line AB , and if with A, P as foci an ellipse of eccentricity e be drawn, and with B, P as foci an ellipse of eccentricity e_2 , intersecting the former in Q ; prove that the locus of Q is an ellipse...
