paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback Pages Number: 224 Language: Simplified Chinese. English. Publisher: Suzhou University Press; 1st edition (December 1. 2009). Semiconductor Device Physics and Technology (Basic Edition) Content Profile: Microelectronics and the rapid development of its related technologies. has become the sign of the times and foundation. Semiconductor devices as the core of the electronics industry. has become the world's largest industries. Develop the professional and related professionals is very important. Written by Professor Sze Semiconductor Device Physics and Technology (second edition) Simplified Chinese version since the since the publication of relevant professional institutions selected as the undergraduate and graduate textbooks by the user's favorite to get the use of hospital high evaluation by the school. has been reprinted four times. With the development of vocational education. vocational colleges also set up a professional of the semiconductor. microelectronics and integrated circuit applications. Physics of Semiconductor Devices and Technology (Basic Edition) is based on the semiconductor device physics and technology (second edition). in order to meet the training objectives of vocational education and vocational school students actual knowledge revised adaptation of. The book is divided into three parts: Part 1 Semiconductor Physics. describes the basic characteristics of the semiconductor and its conduction. especially the most important focus in both silicon and gallium arsenide semiconductor material. Part 2 of semiconductor devices. and discuss the physical processes and characteristics of the major semiconductor devices. The most critical for most semiconductor devices pn junction. the introduction of bipolar and field-effect devices. thermal electronic and optoelectronic devices. microwave and quantum devices. Part 3 of semiconductor technology. introduced from crystal growth to each of the major steps of doping technology. with particular emphasis on the IC. Four Satisfaction guaranteed, or money...
