TRAFFIC SIGN RECOGNITION BASED ON MULTI-ALGORITHMIC FUSION

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Traffic Sign Recognition (TSR) systems provide an additional level of driver assistance, leading to improve safety for passengers, road users and vehicles. As part of Advanced Driving Assistance Systems (ADAS), TSR can be used to benefit drivers by alerting them about the presence of traffic signs to reduce risks in situations of driving distraction, fatigue, poor sight and weather conditions. Several TSR approaches have been proposed in the literature and each method...

Reviews

This written publication is wonderful. It really is simplified but unexpected situations inside the fifty percent in the pdf. You will not truly feel monotony at at any moment of the time (that's what catalogues are for about in the event you request me).

-- **Dr. Jamar Willms**

This publication will be worth purchasing. It is writer in straightforward words and not hard to understand. I am just very happy to explain how here is the best ebook we have read in my own lifestyle and might be he best publication for at any time.

-- **Devante Mante**
