After a little research, they find that the map leads to the legendary city of gold - El Dorado, by name; but a strange professor by the name of Dr. Nicholous Arahana is after the gold as well. Could the professor s reason to find it be for riches, or could it be for a deeper purpose? After a little misunderstanding, two other men find out about the treasure and seem like they will stop at nothing to gain it for their personal tastes. Will Slade and John find the gold, or will their antagonists prove to be too cunning?.
