Excerpt from Agricultural Economics Research, Vol. 19: April 1967 A lesson that cattle futures teaches concerns the origins of futures trading. A widespread belief, shared by the authors, is that a pre condition for successful futures trading is the existence of extensive cash forward dealings in the commodity. The origins of grain futures in to arrive contracts and the origins of futures trading in eggs and butter in various cash dealings show this clearly In more recent times, it is shown by the development of soybean and soybean oil and meal futures from extensive cash forward trading in these commodities. Extensive cash forward dealings in a commodity are presumptive evidence of the economic need for more standardized trading methods. But futures trading in fed cattle evidently has developed without appreciable cash forward trading in fed cattle. What did exist were extensive dealings in feedlot services. Apparently, we should generalize more broadly: a pre condition for successful futures trading in a commodity is the existence of extensive transactions in some economic equivalent, whether it be dealings in the commodity itself or...
