Forgotten Books, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Propagation and Distribution of Food Fishes for the Fiscal Years 1967 and 1968 Region I. - Fish are assigned to supply two principal requirements: salmon allocations as a part of the Bureau's contribution to the program for five species of Pacific salmon; trout for fishery management programs developed by the Bureau of Sport Fisheries and Wildlife in cooperation with the States. Only a limited number of formal requests for fish are submitted by individuals and sportsmen; organizations. Region II. - Increasing numbers of trout and warm-water fish are required for stocking waters that are the primary obligation of Federal fishery managers. Warm-water species are allocated on the basis of a large number of formal requests for stocking farm ponds, ranch tanks, and small watershed impoundments sponsored by State and Federal agencies. Region III - Allocations of fish are in three principal categories: stocking in cooperation with State and Canadian fishery authorities to rehabilitate the lake trout fishery in the Great Lakes; stocking trout in waters on Federal lands and in State waters in cooperation with State fishery authorities; and allocations to farm ponds sponsored primarily by agricultural conservation agencies. Region IV. - Allocation of large numbers of trout to waters on Federal lands and to State trout waters resulting from major impoundments on large river systems. The greatest number of applications are those sponsored by agriculture conservation agencies to meet the sustained demand for stocking the many thousands of warm-water farm ponds in the southeastern States.
