This thrilling novel explores the life of an 8th grader whose life takes a somersault when he opens a door which transports him back to World War 2! After narrowly escaping death by the hands of German infantry, and taking part in a teeth-rattling escape, he soon finds out that he is part of a classified project in a last-ditch attempt to push back the Axis forces. Children run the classified project, with adults offering no more than assistance. Children undergo covert operations to sabotage the German war effort. But what happens when an agent goes rogue? What happens when casualties of children are reported? Does it violate ethics? Even when the children and parents give their full consent? It all depends on perspective.
