Prediction of Water Quality
Parameters Using Artificial
Intelligence
Case study: Johor River Basin

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Case study- Johor River Basin | Rapid urban development s often witness deterioration of regional water quality. As part of the management process, it is important to assess the baseline characteristics of the river environment so that sustainable development can be pursued. The aim of this research is to develop a water quality prediction model in Johor River at two different stream flow level (main stream and tributary). Several modeling methods have...

Reviews

Very useful to any or all type of people. This is certainly for those who statte there was not a worth reading through. You can expect to like how the writer write this pdf.

-- **Dr. Rashawn Lang**

This ebook is great. It typically will not expense a lot of. You will not sense monotony at at any moment of your own time (that's what catalogs are for about when you question me).

-- **Shaniya Torphy PhD**
