At the Sixth Annual Dinner Under the Auspices of the Board of Trustees of Plymouth Church The Subway Problem is not so intricate and complex as is generally supposed. It is, in fact, quite simple. The difficulty arises from the confusion of the public mind, which has been delected from the main issue by many extraneous considerations. If the essential facts can be put together in an easily comprehensible form, a real service will be rendered. In order to do this, the law governing the construction and operation of subways in New York ought first to be understood. Upon the Public Service Commission, and upon it alone, rests the duty of laying out and determining routes and of awarding contracts for construction. After this the Board of Estimate and Apportionment is charged with the duty of approving said contracts and of appropriating the necessary money to carry them into effect. Basically no terms to clarify. It is actually written in basic terms rather than confusing. I found out this ebook from my dad and I suggested this book to find out.
