Brand New Book ***** Print on Demand *****.Excerpt from Coke: A Treatise on the Manufacture of Coke and Other Prepared Fuels and the Saving of by-Products, With Special References to the Methods and Ovens Best Adapted to the Production of Good Coke From the Various American Coals The first edition of Coke was issued by The Colliery Engineer Company, of Scranton, Pennsylvania, in the year 1895 and was the first treatise on this growing and important industry published in the United States of North America. This edition was exhausted over one year ago. In the great progress of industrial manufacturers so manifest in the United States, this interval of nine years since the appearance of the first edition has retired some of the former methods in the manufacture of coke, and introduced many new ones. This advance in the progress of the industry has been induced by the large increase in the demand for coke, arising from the expansion in the use of steel and iron in architectural construction, as well as in railroad supplies. In the manufacture of these materials, a pure quality of coke fuel is an...
