Excerpt from Enzymes The following lectures were given under the Herter Foundation at the University and Bellevue Hospital Medical College in the City of New York in 1910. They were delivered before an audience of physicians and medical students and the subject was treated from the biological point of view. Here let me take occasion to express my indebtedness to the members of the faculty of the College, as well as to many other colleagues in New York, for their kindness during a visit which I shall ever remember with pleasure. I am also indebted to Dr. W. B. Cannon for assistance which has enabled me to deliver these lectures in a language foreign to me.
