Reviews

This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.

THE EAST-WEST DISCOURSE

Peter Lang Nov 2010, 2010. Taschenbuch. Condition: Neu. Neuware - Political actors from many different countries locate their home country as a unique transition point between 'the East' and 'the West'. The terms 'east' and 'west' have become highly symbolic, yet also have a relative meaning, since every place is east of somewhere, and west of somewhere else. What gives this banal cliché such irresistible attraction How does East-West symbolism interact with other symbolic geographies This book examines East-West rhetoric in several different historical contexts, seeking to problematize its implicit assumptions and analyse its consequences, particularly in parts of Europe where political actors conflate local geography with symbolic 'Easts' and 'Wests'. The various contributions to the book provide an overview of East-West discourses in scholarly writing; trace the medieval origins of European East-West symbolism; and discuss East-West discourses in nineteenth-century Germany, interwar Poland, Yugoslavia and Transylvania, twentieth-century Finland, Turkey in the late Cold War and post-Communist Belarus. 237 pp. Englisch.
