Reviews

A top quality publication along with the font used was intriguing to read. I really could comprehend everything using this written ebook. Its been designed in an remarkably straightforward way and it is only after i finished reading through this publication by which basically altered me, modify the way i believe.

PHYSICO-CHEMICAL METHODS

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 66 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1898 Excerpt: . . . follows, which is observed to a maximum temperature; after which the temperature decreases, on account of the radiation. The decrease at first is not uniform, as would be the case if the substance had given up all its excess of heat to the calorimeter immediately after reading off the maximum temperature. It is assumed that the principal period continues through ten minutes--i. e. , after ten minutes the decrease of temperature from minute to minute is uniform. Then T_0 is the temperature at the beginning of the investigation, and t_1, t_2, \dots, t_n are the times observed from minute to minute during the principal period. 3. The After-period. --Finally, $T_0, T_1, T_2, \dots, T_n$ are the temperatures observed from minute to minute during the after-period--i. e. , the period in which the temperature change, due to radiation, has become uniform. Let the temperature changes during the fore-, principal, and after-periods be represented by A and A_f, A_r , then the mean temperature changes of the fore- and after-periods correspond to the mean temperatures \bar{t}_f and \bar{t}_a of the two periods; that is, --Other corrections, Berthelot, *Mec. chim.* I, p. 208, 1879; Wiedemann and Ebert, *Phys. Prakt.*, pp. 187 and 215, 1890. J -|T|-Jo and JT --1. 5 JO 5 IO It can be assumed, then, that the differences in the temperature changes A stand in the same ratio as the differences in the corresponding temperatures; if, therefore, A and A_f represent...
