

The Algebra of Thought Reality: Second Edition: The Mathematical Basis for Platos Theory of Ideas, and Reality Extended to Include a Priori Observers and Space-Time

By Stephen Blaha

Pingree-Hill Publishing. Paperback. Book Condition: New. Paperback. 164 pages. Dimensions: 8.8in. x 6.0in. x 0.5in. This Second Edition extends the First Edition of The Algebra Of Thought and Reality: A New Operator Formulation For Classical and Quantum Logic Obviating Logic Paradoxes and Gdels Undecidability Theorem; and Giving a Mathematical Basis For Platos Theory Of Ideas, And Reality - The Standard Model Of Particles in several ways. There are three important new sections. One section discusses Observers both in the formulation of Operator Logic and in the Quantum Reality in which we live. The second new section discusses space-time. It shows the need for Time since, for example, proofs are stated in (time) steps as are experiments and phenomena in Reality. Since we see events at various spatial locations the concept of space must appear in Reality. Consistency with the spinor formulation of Operator Logic leads to four-dimensional space-time. The third section deals with the Concept of Being as substance and form from philosophic and modern particle physics points of view. Lastly, some additional comments appear in the text. The additional topics presented in this edition serve to solidify the connection of Operator Logic (Ideas-Thought) with Blahas derivation of the Standard Model...

Reviews

Very useful for all group of people. It is amongst the most incredible pdf i actually have read through. Its been written in an extremely straightforward way and it is just right after i finished reading through this pdf by which basically modified me, change the way i think.

-- Felicia Nikolaus

These sorts of ebook is the ideal book offered. It can be writter in simple terms rather than confusing. I discovered this pdf from my dad and i advised this publication to understand.

-- Mr. Alejandrin Murphy PhD
