Peter Lang Publishing Inc, United States, 2016. Paperback. Book Condition: New. 225 x 150 mm. Language: English . Brand New Book. This volume advances theory and research by presenting original, empirical studies as well as theoretical and methodological overviews on dark family communication processes. Taking an interdisciplinary and international approach, the volume includes contributions from the most respected scholars in their specialty areas. It is the first published work on the dark side of family communication scholarship to include critical theorizing. This makes it an important contribution to family communication research in general and dark side work more specifically. Such chapters examine how gender, race, class, and sexual orientation impact and are impacted by dark family communication. In addition to a micro, interaction-based exploration of how social location and dark family communication processes intersect, some chapters offer more social critiques of dark family communication (and how it is socially constructed) at a macro-level. The volume is intended for scholars, researchers, and graduate students interested in the dark side of family communication and family dynamics. It is also well suited for advanced undergraduate or graduate courses in family communication, dark side of family communication, family processes, family dynamics, family conflict, and family stress and coping.
