## Photon and Particle Interactions with Surfaces in Space: Proceedings of the 6th Eslab Symposium, Held at Noordwijk, the Netherlands, 26 29 September, 1972

By -

Springer. Paperback. Condition: New. 591 pages. Dimensions: 9.6in. x 6.7in. x 1.4in. The 6th ESLAB Symposium, organised by the Space Science Department (formerly ESLAB) of the European Space Research and Technology Center, was held in Noordwijk from 26-29 September 1972. This year the theme was Photon and Particle Interactions with Surfaces in Space. More than 60 scientists attended mainly from ESRO Member States and from America. The first part of the Symposium was devoted to introductory lectures and to papers on interactions with spacecraft. The second half dealt with the photon and particle interactions with celestial objects, and ended with a general discussion and presentations of areas where new developments are required. The purpose of this Symposium was to throw light on the importance of the problems which are evoked by E. A. Trendelenburg in his introductory remarks, and to sum up our present understanding of these phenomena. It is hoped that this book will prove useful to physicists and engineers who are actually involved in space experiments and are concerned with interactions of these types. R. J. L. GRAND OPENING ADDRESS Gentlemen, I should like to welcome you to the 6th ESLAB Symposium. In the past...
