It is amazing how a simple vaccine can prevent polio, hepatitis B, rotavirus-the list is almost endless. But, what if that were no longer the case? What if the government unleashed each virus for the sole purpose of controlling the population? Henly Sawyer finds herself discovering this truth for the first time, and as she does, the world that she thought she knew shatters. She wakes in Aurora, a quarantine miles from home, and is forced into a grueling reality. Henly strives to piece together the truth about her parents and their involvement in the unfolding chaos. With the help of her new friends, Renner and Dex, Henly sets out to understand a world that is now filled with Deviations-an infected group of violent, murderous humans.
