### ***Reviews***

*This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

## EXPLORING STUDENTS GREEN LIFESTYLES

LAP LAMBERT Academic Publishing. Paperback. Book Condition: New. Paperback. 112 pages. Dimensions: 8.4in. x 5.9in. x 0.4in. This book is a study on Greener Lifestyles. The Universities are stakeholders in achieving environmental sustainability and are conducting researches on truncated carbon emanations and executing programmes for truncated carbon campuses in the future. Students of Bahria University are well aware about the issues but they lack awareness in regard to the solution regarding global warming and climatic change. They know what can be done to reduce the global warming but they lack awareness in how to do it; thus the students are not that much committed to their environment. Many universities have in place their environmental sustainability strategy and programmes for cutting down carbon emissions in aboard but in Pakistan this still has to be done. Students are an significant fragment of this approach and many universities continuously study their students lifestyles in other countries, in Pakistan universities need to make such efforts in understanding how students, dispose waste, conserve water and electricity; thus understanding their awareness about issues related to living green and their commitments to greener living. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
