Sergeant Major Seth Phoenix s story continues in The Phoenix Codes as he battles the CIA and the U.S. government s plans to duplicate his DNA codes for future use in the Human Clone Research programs already being explored in Russia. When he meets Russian Agent Nikita Oleshun for the second time during a rescue mission in Srebrenica, Bosnia, Phoenix realizes that the would-be enemy is actually an ally and attempting to defect from Russia. Phoenix races against time and certain death as he fights to protect his supernatural match and earn the right to live free from the constraints of his powers. What hidden agendas will Phoenix uncover as he strips away the CIA s veil of secrecy? And will he survive a Russian assassin s order to kill him and Nikita Oleshun before they reach Homey Airport, the most highly classified and guarded military base on the planet? The Phoenix Series is a fictional story inspired by the real life secret operations of the United States Military. Within these pages, you will be introduced to paranormal research conducted under the umbrella of military science. You decide what s real and what s not. Just remember, in the end, and under direct orders of the CIA, this never happened.
