

## Winter of the Genomes (Paperback)

Filesize: 7.83 MB

### **Reviews**

*Excellent electronic book and helpful one. It usually does not cost a lot of. I am quickly will get a pleasure of reading through a written publication.*

*(Bernardo Feeney Jr.)*

## WINTER OF THE GENOMES (PAPERBACK)

Createspace, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Winter of the Genomes explores how humans will fit into an evolving ecosystem being impacted by artificial intelligence. We are entering the age of AI and robots when they could take as many as half the jobs in industrialized countries. On the other hand, robots are also making inroads as lovable companions, and they don't eat, drink water, or create waste. If populations drop due to pessimism about the economic future caused in part by robots and automation, as has started to be the case, the corresponding decline in energy demand will contribute to a significant reduction in global warming. Also, robots could be key to improving agricultural production thus helping to fend off a major global food crisis.
